- **API docs:**Scalar,Swagger
- **Database:** Sqlserver,Mysql,Postgresql,MongoDB,Redis,Neo4j,ElasticSearch
- **DevOps & Tools:** Docker, Git,GitHub,GitLab,CI/CD,Pipeline
- **Agile Tools:** Slack/Jira/Confluence/Notion
- **Vibe Coding:** Utilize AI tools (LLMs) to accelerate full-stack development.

## WORK EXPERIENCE

---

### Web Designer(Volunteer) | Mind Body Soul(Auckland) | April 2026 – Present

- **Platform Modernization:** Leading the digital transformation of the trust's online presence by utilizing the **Brizy** no-code platform to build a responsive, SEO-optimized community website.
- **Headless CMS:** Developed a high-performance site prototype using **Next.js 15 (App Router)** and **Sanity CMS** to evaluate the transition from no-code to a headless architecture; implemented **TypeScript** for type safety and **Tailwind CSS** for a bespoke, responsive design system.
- **Agile Collaboration:** Operating within a cross-functional team using **Agile** methodologies, utilizing **Slack** and **Notion** for daily asynchronous communication.
- **UI/UX & User Journeys:** Designing intuitive interfaces in **Figma** to streamline booking processes, directly enhancing digital engagement for the Ponsonby community.

### Retail Assistant(Volunteer) | Mercy Hospice Auckland | April 2026 – Present

- Engaged in diverse community interactions, demonstrating strong communication skills in a professional New Zealand environment.

- Demonstrated strong adaptability and teamwork by supporting daily operations and contributing to local charitable initiatives.

#### Senior Full-Stack Developer & Technical Lead | Yunnan Xiaowei Tech | 2018 – 2026

- **Scalable Architecture:** Spearheaded the end-to-end development of a microservices-based **Training Management System (TMS)**, supporting **2,000+ institutional clients nationwide** through a high-concurrency architecture (utilizing .NET Core & Java).
- **Full SDLC Leadership:** Managed the complete lifecycle—from initial requirement gathering for complex enterprise needs to high-frequency CI/CD deployment and post-launch optimization.

#### Senior Systems Developer | Kunming Jiexiangbao Tech | 2014 – 2018

- **Enterprise Solutions:** Developed bespoke CRM, MIS, and E-commerce platforms using cross-platform technologies (Web, Mobile, and WeChat Mini-Programs).
- **Technical Integration:** Integrated complex third-party APIs for payment gateways and logistics, ensuring seamless B2B data synchronization.

#### Early Career History (2007 – 2014)

- **Software Engineer | Kunming Wuhua Yingcai (2011 – 2014):** Designed internal enrollment systems and secure student databases.
- **Information Systems Developer | Southwest Forestry University (2007 – 2011):** Managed university IT infrastructure and modernized legacy administrative workflows.

### EDUCATION

---

#### **Master of Business Informatics (Business Analytics) | Yoobee College, Auckland | Jan 2026 – Present**

Focusing on leveraging data to drive business decisions and marketing efficiency.

#### **Master of Computer Software and Theory | Kunming University of Science and Technology | 2007**

Advanced studies in system architecture and logic.
